

TERMS AND CONDITIONS

V. LOCATION OF COMPANY'S EQUIPMENT

A. The Company shall have the right to install any poles, lines, transformers, or any other equipment on the property occupied by the Customer which, in its judgment, are necessary in supplying electricity to the Customer.

B. The Company shall have the right to place its transformers and such other apparatus as may be needed in connection with supplying such electricity at a convenient point or points on the property or in the building or buildings of the Customer.

C. The Customer shall provide suitable space for the installation of the necessary metering apparatus. This space shall be:

1. Substantially free from vibration.
- 2a. An outside location is required for all residential services unless otherwise approved by the Company. For detached single family residential structures a side location is preferable.
- b. An outside location where practicable for commercial, industrial or large residential apartment premises. The location for such metering shall be subject to approval by the Company.
3. Readily accessible and convenient for reading, testing and servicing.
4. Such that the metering apparatus will be protected from injury by the elements or the negligent or deliberate acts of persons.

D. All equipment furnished and installed by the Company shall be and remain the property of the Company.
