

Schedule 1-CPP

RESIDENTIAL CRITICAL PEAK PRICING

(EXPERIMENTAL)

I. APPLICABILITY

This schedule is applicable to separately metered and billed Electricity Supply Service and Electric Delivery Service from the Company for use in and about a single-family residence, which is selected by a Company-employed Contractor in conjunction with this experiment. The experiment will conclude with the billing month of May 2009.

II. MONTHLY RATE

A. Distribution Service Charges

1. Basic Customer Charge
Basic Customer Charge \$7.00 per billing month.
2. Plus Distribution kWh Charge

First 800 kWh	@	2.233¢ per kWh
Additional kWh	@	1.260¢ per kWh

B. Electricity Supply Service Charges

1. Electricity Supply kWh Charge
 - a. For the calendar months of January, February, March, and December:

<u>kWh consumed:</u>		
6 a.m. to 11 a.m. and 5 p.m. to 10 p.m.	@	3.957¢ per kWh
All other hours	@	1.840¢ per kWh
 - b. For the calendar months of April, May, October, and November:

<u>kWh consumed:</u>		
6 a.m. to 10 p.m.	@	2.857¢ per kWh
All other hours	@	0.011¢ per kWh
 - c. For the calendar months of June through September:

<u>kWh consumed:</u>		
10 a.m. to 10 p.m.	@	5.389¢ per kWh
All other hours	@	0.823¢ per kWh
2. Plus Electricity Supply Critical Peak kWh Surcharge (in addition to above rates)

All Critical Peak kWh	@	45.0¢ per kWh
-----------------------	---	---------------

Schedule 1-CPP

RESIDENTIAL CRITICAL PEAK PRICING

(EXPERIMENTAL)

II. MONTHLY RATE (Continued)

3. Each Electricity Supply kWh used is subject to Fuel Charge Rider A.

C. The minimum charge shall be the Basic Customer Charge in Paragraph II.A.1., above.

III. DESIGNATION OF CRITICAL PEAK HOURS AND CRITICAL PEAK PERIODS

A. Critical Peak Hours are limited to a total of 125 hours during the one-year period beginning June 1st and continuing through May 31st the following year.

B. Critical Peak Periods are limited to 25 periods during the one-year period beginning June 1st and continuing through May 31st the following year. Each Critical Peak Period will contain up to five contiguous Critical Peak Hours. Critical Peak Periods are limited to no more than two periods per day, with the potential for two contiguous (back-to-back) periods.

C. Within the limitations above, Critical Peak Hours and Periods will be determined at the sole discretion of the Company. During the heating season, a Critical Peak Period *typically* will fall between 6 a.m. and 11 a.m., or between 5 p.m. and 10 p.m. During the cooling season, a five-hour Critical Peak Period *typically* will fall within the period between 1 p.m. and 8 p.m. (For back-to-back periods during the cooling season, both periods typically will fall between 11 a.m. and 9 p.m.) The customer will receive no less than 30-minutes notice of application of a Critical Peak Period.

IV. NOTIFICATION / ENERGY MANAGEMENT EQUIPMENT

A. Equipment will be installed by the Contractor for the purpose of notifying the Customer of a forthcoming Critical Peak Period and for the purpose of managing some portion of the Customer's energy consumption on a limited basis. The Customer should have the ability to override such energy management equipment, subject to possible increased billing under this Schedule. Further, the Customer will be responsible for any billing impact due to the failure of such equipment to function as intended. Moreover, the Customer will be billed based on consumption recorded on the Company's meter without regard to the proper operation of the notification / energy management equipment.

B. During the experiment, the Customer will not be billed for any costs associated with equipment installed by the Contractor which are in excess of the costs associated with providing normal (standard) service.

V. METER READING AND BILLING

- A. Metering equipment will be installed capable of recording consumption for each 30-minute period (ending on the hour and half hour) of the billing month.
- B. The Company shall have the option of billing monthly or bimonthly. When bills are calculated for a bimonthly period, the Basic Customer Charge shall be multiplied by two; the number of kWh specified in the initial block of the Distribution kWh Charge shall be 1600 rather than 800, and the minimum charge shall be the modified Basic Customer Charge.

VI. TERM OF CONTRACT

The term of contract shall be for a period of not less than one year, and not extending beyond the billing month of May 2009.
