

Schedule GS-1

SMALL GENERAL SERVICE

I. APPLICABILITY

Except as modified herein, this schedule is applicable only to a non-residential Customer who elects to receive Electricity Supply Service and Electric Delivery Service from the Company and who has no more than two billing months with a peak measured demand of 30 kW or more within the current and previous 11 billing months.

At such time the Customer no longer meets the above applicability requirement, the Customer will remain on this schedule for the period (not exceeding two additional billing months) required to achieve an orderly transfer to the applicable schedule.

This schedule is applicable to the supply of direct current electricity to any nonresidential Customer.

II. MONTHLY RATE

A. Distribution Service Charges

1. Basic Customer Charge
 - For Single-phase Service \$11.47 per billing month
 - For Three-phase Service \$15.47 per billing month
2. Plus Distribution kWh Charge
 - First 1,400 kWh @ 1.805¢ per kWh
 - Over 1,400 kWh @ 1.082¢ per kWh

B. Electricity Supply Service Charges

1. Electricity Supply kWh Charge
 - a. For the Billing Months of June – September
 - First 1,400 kWh @ 3.934¢ per kWh
 - Over 1,400 kWh @ 5.207¢ per kWh
 - b. For the Billing Months of October – May
 - First 1,400 kWh @ 3.934¢ per kWh
 - Over 1,400 kWh @ 2.612¢ per kWh
2. Each Electricity Supply kilowatt-hour used is subject to Fuel Charge Rider A.

Schedule GS-1

SMALL GENERAL SERVICE

II. MONTHLY RATE (Continued)

- C. When direct current electricity is supplied to the Customer a surcharge of 15 percent will be added to the above charges.
- D. The minimum Distribution Service Charge shall be the highest of:
 - 1. The Basic Customer Charge in Paragraph II.A.1.
 - 2. The amount as may be contracted for.
 - 3. The sum of the charges in Paragraphs II.A. through II.C., above, plus \$1.480 multiplied by the number of kW by which any minimum demand established exceeds the demand determined under Paragraph III.
 - 4. If the demand determined under Paragraph III. is 50 kW or greater, the minimum charge shall not be less than \$3.13 per kW of demand determined.

III. DETERMINATION OF DEMAND

- A. A kW demand meter will be installed when the Customer has used 3,000 kWh or more in any billing month, when the Customer's estimated demand is greater than 25 kW, or when the Customer has contracted for standby, maintenance, or parallel operation service.
- B. The kW of demand will be determined as the highest average kW load measured in any 30-minute interval during the billing month.

IV. MINIMUM DEMAND

The minimum demand shall be such as may be contracted for, however;

- A. When the kW demand determined has reached or exceeded 500 kW during the current or preceding eleven billing months, the minimum demand shall not be less than the highest demand determined during the current and previous eleven billing months.

(Continued)

Schedule GS-1

SMALL GENERAL SERVICE

IV. MINIMUM DEMAND (Continued)

- B. When the Customer's power factor is less than 85 percent, a minimum demand of not less than 85 percent of the Customer's maximum kVA demand may be established.

V. METER READING AND BILLING

- A. Meters may be read in units of 10 kWh and bills rendered accordingly.
- B. The Company shall have the option of reading meters monthly or bimonthly. When the meter is read at other than monthly intervals, the Company may render an interim monthly bill based on estimated kWh use during periods for which the meter was not read.
- C. When bills are calculated for a bimonthly period, the Basic Customer Charge shall be multiplied by two; the number of kWh specified in the initial block of the Distribution kWh Charge and the Electricity Supply kWh Charge shall be multiplied by two before the rates per kWh are applied to the usage for the bimonthly period; the minimum Distribution Service Charge shall be multiplied by two; and the charge specified in Paragraph VII.C. shall be multiplied by two.

VI. UNMETERED SERVICE

- A. The Company may, at its sole discretion, provide unmetered service when the Company determines the characteristics of the service location are highly unsuitable for the placement of a meter. Impracticality may be caused by difficult or dangerous meter access, high potential for vandalism, etc.
- B. The monthly kWh usage for unmetered services shall be determined by multiplying the connected load by the hours of operation in a month.
- C. The monthly charge for unmetered service, except for services qualifying under Paragraph VI.D. below will include the charge in Paragraph II.A.1. less \$2.00 per billing month, plus the unmetered kWh usage as determined in VI.B. above multiplied by the charges contained in Paragraphs II.A.2., II.B.1., and II.B.2.

(Continued)

Schedule GS-1

SMALL GENERAL SERVICE

VI. UNMETERED SERVICE (Continued)

- D. The monthly charge for unmetered services connected to a Company street lamp photocell receptacle through the use of an adapter will include the charge in Paragraph II.A.1. less \$4.00 per billing month, plus the unmetered kWh usage as determined in VI.B. above multiplied by the charges contained in Paragraphs II.A.2., II.B.1., and II.B.2. This service will be available only at the convenience of the Company and through agreement between the Company and the Customer for communication devices that are not interconnected with other communication facilities via communications wiring or optical fiber.
- E. Each point of connection shall be considered as a unique Customer and shall receive separately calculated bill amounts.

VII. STANDBY, MAINTENANCE OR PARALLEL OPERATION SERVICE

A Customer requiring standby, maintenance or parallel operation service may elect service under this schedule provided the Customer contracts for the maximum kW which the Company is to supply. Standby, maintenance or parallel operation service is subject to the following provisions:

- A. Suitable relays and protective apparatus shall be furnished, installed, and maintained at the Customer's expense in accordance with specifications furnished by the Company. The relays and protective equipment shall be subject, at all reasonable times, to inspection by the Company's authorized representative.
- B. In case the maximum kW demand determined in Paragraph III. or the minimum demand determined in Paragraph IV. exceeds the contract demand, the contract demand shall be increased by such excess demand.
- C. In addition to the charges in Paragraph II. the Customer will be charged an amount equal to \$4.717 multiplied by the number of kW by which the contract demand exceeds the demand determined in Paragraph III.

Schedule GS-1

SMALL GENERAL SERVICE

(Continued)

VIII. TERM OF CONTRACT

The contract shall be open order unless (a) standby, maintenance or parallel operation service is provided, or (b) the Customer or the Company requests a written contract. In such cases, the term of contract for the purchase of electricity under this schedule shall be as mutually agreed upon, but for not less than one year. During the minimum term of applicability, the Customer may be billed under the corresponding Unbundled Rate Schedule GS-1U, if applicable.
